DETAILED ACTION

Response to Amendment

1. This action is responsive to the Amendments filed 25 July 2006. Claims 1-10 are pending. Claims 1 and 5 are amended.

Allowable Subject Matter

2. Claims 1-10 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1-4 are allowable over the prior art because a method for collision detection, comprising the steps: connecting an output of the sensor to a threshold value decider; comparing the unfiltered signal without a wavelet transformation with a predetermined plausibility threshold; and detecting a collision on the basis of the comparison and of the filtered signal is not found, taught or suggested in the prior art of record.

Claims 5-10 are allowable over the prior art because an apparatus for collision detection, comprising: a filter that filters the signal, to which the sensor is directly connected; and a threshold value decider for the unfiltered signal, to which the sensor is directly connected, so that the unfiltered signal is compared with a predetermined plausibility threshold without a wavelet transformation is not found, taught or suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
